WORK EXPERIENCE

Senior Front-End Developer
Gutcheck, Denver CO
7/2019 – present

- Part of a small team that created and maintains various web-based tools that automate and facilitate previously time-intensive tasks
- Help create and maintain Lambda functions that generate client deliverable documents containing numerous charts, tables, and other assets
- Help maintain GitHub Workflows and Atlas MongoDB aggregations

Lead UI / Front-End Developer
Ping Identity, Denver CO
4/2014 – 6/2019

- Grow and maintain a library of custom React components used across multiple projects
- Work with UX designers to flesh-out incomplete designs and interactions
- Work with developers from all groups using the Library to ensure the Library is fulfilling their requirements
- Manage incoming feature and bug requests among our small team of front-end developers

Front-End Developer / UI & UX Designer
Yahoo! Inc, Denver CO
5/2010 – 3/2014

- Work with visual designers and back-end engineers to prototype and code front-end experiences
- Work with UI team to architect user workflows and interactions
- Help create and improve site design language and patterns

Front-End Developer
Associated Content, Denver CO
2/2010 – 5/2010

- Work with team to create user workflows and experiences
- Work with UX designers to harden new designs
- Help with client-side coding on larger engineering efforts
- Create visual designs for various page elements

Web Developer / UX Designer
Technorati Media / AdEngage, El Segundo CA
2005 – 2009

- One of a small team of developers creating, maintaining, and extending public advertising web portal.
